

# LEACOCK SETTLERS MAP

By Chris Rutter, Feb, 2014

The maps below show the early settlers in and around Leacock Township, PA, around the years 1733 - 1735. Many of the settlers arrived before 1733. However, those who arrived after 1725 typically had to wait to have surveys taken because legal entanglements involving the Penn family forced the proprietary land office to restrict its activities in the latter part of the 1720's.

The shape and position of the boundary lines are approximations only, created with reference to township warrantee maps and copied surveys from the online land records shown on the PA Historical & Museum Commission website ([www.phmc.state.pa.us](http://www.phmc.state.pa.us)).
